Have any environmental improvement measure been put in place at the company Yes ~~No~~

If yes please state: We have started monitoring our fuel consumption & are trialling the use of liquefied petroleum gasoline for 5 of our smaller vans.

What are the most pressing environmental concerns for the company at present? Fuel and packaging costs

Other comments: We are also interested in reducing waste disposal and electricity costs.

To help us tailor our support to your needs please complete the following table as fully as possible.
